

## Inquiry

### Detailed description of the devices covered by the subject of the Purchase Order

**Induction heater for the diameter ranges of 20-140mm with the possibility of synchronising two heaters to operate one forging unit. The heater must be able to heat part of the rod.**

- a) Range of materials handled
    - Min. 20mm round and square
    - Max. 140mm round and square
  - b) Materials length 80-500mm
  - c) Heating temperature range 1100-1250°C
  - d) Capacity approx. 3200kg/h
  - e) Equipped with a divider at the heater outlet
  - f) Equipped with a heater loading system
  - g) Temperature spread max. +/- 20°C
  - h) The heater is to be equipped with an inductor allowing for heating part of the rod
- 
1. In detail, the subject of the Purchase Order includes:
    - a. delivery of the Devices - including transport of the Devices to the Ordering Party's plant (4 Kuziennicza St., Jawor)
    - b. installation of the devices at the Project implementation site in the manner indicated by the Ordering Party, supported by the research team responsible for the implementation of R&D activity under the Project
    - c. start-up of the devices and signing acceptance protocols for individual devices "without reservations" at the Plant.
  2. The Ordering Party requires that the Contractor, together with the delivery of individual devices, provides:
    - a. Technical and operational documentation (DTR), in accordance with the requirements indicated in point 1 of this inquiry
    - b. User manual
    - c. Guarantee card.
  3. The Contractor shall be obliged to provide a guarantee for each device covered by the subject of the contract for a period of at least 12 months from the date of signing the final protocol

(drawn up at the Ordering Party's plant in connection with the acceptance procedure) or 15 months from the date of delivery of the device to the Ordering Party's plant, whichever ends earlier.

4. During the guarantee period the Ordering Party requires the Contractor to provide service (commencement of service activities) for the Device within no more than 7 days from the Ordering Party's notification of a failure or defect in the Device (service response time). During this time, a repair team must appear at the Ordering Party's plant, acting on behalf and for the benefit of the Contractor, having the competence and equipment to start the repair process.

**Note:** If defects or faults of the delivered device can be diagnosed remotely (via the Internet), the Ordering Party will call the Contractor to conduct service activities only after the remote repair has failed.

5. Validity of the offer: minimum 3 months
6. Deadline for submitting offers: until August 30, 2021.
